to ensure that the generated contour lines conform exactly to the shape of the ground. Also, any cross sections or long sections generated from the digital terrain model must reflect the real situation on site.

## **2.2. Digital Survey Plans**

In addition to the digital terrain model, we require digital survey plans to be provided in AutoCAD 2000 or DXF format. These plans must indicate the position of all relevant ground features such as trees, road signs, fences, etc within the required survey area. Watercourses must also be shown together with the direction of flow.

All existing culverts (including the inlet and outlet structures) must be included in the survey. The size, as well as the invert levels at the inlet and outlet must be indicated on the plans.

Contour lines generated from the digital terrain model and shown on the digital survey plan must be rounded and at 0.25m intervals. Contour lines every 5m must be shown with a thicker line when plotted. A paper plot of the survey plan must also be provided (scale 1:1000). All digital information is to be supplied on a CD, with a covering letter briefly describing the content of each file on the disk(s).

## **2.3. Control Points**

A total of 3 permanent bench marks (including levels) must be placed strategically on site for use during construction. These are to be cast in concrete and labelled with an engraved aluminium plate stating the name of the benchmark.

A list of Trigonometric Beacons, control points and reference beacons used must be supplied with the plotted plans. The list must include the name, coordinates and levels (where applicable).
